FROM OUR BROTHER-EDITOR.

London, July 13th

Lord Wolseley is expected at Victoria Station to-day at 4.30 p.m., but his reception will not be one of rejoicing. The nation had so much set its heart on Gordon that if Lord Wolseley had brought him back the scene would have surpassed Wellington's return after Waterloo. It is stated that the failure of the expedition is the fault not of Gen. Wolseley but of the Gladstone Cabinet, who grudged a few pounds to save Gordon's life, and moved when too late, purposely lest if Gordon survived he should tell many unpleasant facts confirming the "indelible disgrace' that the Radical Government have brought on the British flag. In this morning's papers we read of the negotiations between the Mahdi and Mr Gladstone for the safe delivery of Gordon at Suakim or Dongola for a sum of £50,000, but Mr Gladstone refused. It seems the Mahdi authorized Baron de Billing, French Minister, to make the offer; the latter, being then in Paris, conferred with Lord Lyons, who communicated the proposal to Lord Granville, and the Cabinet refused it, on the same grounds as they refused Mr. Wilfrid Blunt's offer to bring Gordon home to England if the army received orders to stay operations at Wady Halfa. The result is a terrible blow to British prestige, which has likewise shattered the military reputation of Lord Wolseley: everybody says that if he had taken the Suakim route, as the *Times* and Lord Napier insisted, the expedition would have ended otherwise.

Our old friend Capt. Henry Fairfax C.B., so favorably known in Buenos Ayres, was this morning gazetted to the rank of Rear-Admiral. It is likely he will soon be made one of the Sea-Lords of the Admiralty, as he has had such experience both afloat and in office, He was the naval adviser to Mr Goschen when First Lord of the Admiralty, having been selected for his great knowledge in naval matters. Mr Goschen being aware that he was a Conservative. The present Lord Fairfax is a physician in Virginia, the lineal representative having remained in the United States since the last century. But it is quite possible that Admiral Fairfax may some day sit in the House of Peers as Lord St. Boswell's, taking his title from his charming estate on the Tweed, near Melrose Abbey.

The Government has promised a parliamentary enquiry into the existing depression of trade, a clap-trap cry of the protectionists, for there is no depression. We can only deplore that Lord Salisbury should have given a seat in the cabinet to the Duke of Richmond, who is always bringing up projects to exclude importations of meat and to tax food. These people who live in the upper atmosphere of the H. of Lords seem to forget that, as Disraeli expressed it, "protection is dead and damned." The D. of Richmond would need horse, foot and artillery around Westminster to pass a law for taxing imported food.

The Income-tax and Savings-bank returns shew that this country has bren since 1880 on a wave of prosperity. Cotton manufacturers have indeed sold printed cottons 2 per cent. less, and calico 16 per cent. less (per yard) than the mean average price for the years 1870-79. But I find that they have also bought their raw cotton at 12 per cent. less. It is simply that the level of prices has falles, but our profits are proportionate, as may be judged from the increased volume exported. I have been requested by the editor of the *Contemporary Review* to supply an essay on this question, which will appear in the next issue: you may expect the proofs next mail, and I think it will interest your readers.

The new Canadian loan is at a premium. You can have no idea of the enormous amounts of money that are now going into all kinds of ventures in the Brit. Colonies and the U. States. The banking business of G. Britain does not find employment for more than about 600 millions, and there is a vast overplus of capital seeking investment. If the elections pass off quietly in the Argentine Republic I am confident that in 1887 there will be a rush of English people to invest in B. Ayres, Santa Fé and Entre Rios, but nobody seems to care about the other provinces. Messrs Trübner say the Handbook is selling briskly, which shows how many people here wish to know about the country.

THE SEASON.

Our correspondent's letter from the Guardia del Monte published in our last issue, is a communication far too important for the sheepfarming interest at large, to be passed over in silence, and we thank the writer for his practical views on the subject. That sheepfarmers paying 15,000 m/c per annum for a puesto should be as badly off, as those on the outside camps who pay little or nothing, is a matter of the highest interest to us all, since most people believed that the great losses in sheep this winter fell upon those who had driven their sheep out to the hard camps; now, however, we see that such is not the case, and that on the dearest and best lands in the country the sheep are dying. Our correspondent says that a poor man cannot pay the expense of sowing 10 squares of alfalfa at his puesto; but let us consider this matter in another light. The total expense of fencing, ploughing and sowing 10 squares of alfalfa even on the outside camps cannot be over 10,000 m/c, and with this area of alfalfa the farmer may count on rearing all his lambs and sheep during the hard winter months; on the other hand he stands to lose all his lambs and perhaps half of his flock, which would more than pay for sowing and fencing 100 squares alfalfa. We repeat our statement that every sheep puesto on hard grass camps should have 10 squares of alfalfa and a flock of good sheep not larger than 1200 or 1500; and the farmer should rear poultry, grow vegetables, keep pigs and milch cows, instead of having nothing at his puesto but his flock of sheep. Last week we had a visit from an old friend from Giles, and he discussed the subject. He says that the Italians have now their chacras out from the town of Giles to his very land, and that at the rate the chacra business in Giles is progressing soon the whole partido will be ploughed up under chacras. He believes in the outside camps, and says that anyone who doubts them doesn't know what he is talking about.

It is now 40 years since he came to this country, and when he first started in the camp with sheep, it was in the South and close to the Samborombon, and that a league of camp barely supported his flock of sheep, owing to the pajas and hard grasses that abounded. His opinion is that the sheep farmers must be more agricultural; they must plough, sow and work hard instead of loitering behind a flock of sheep all day, and seeing them dying around rather than move off. He says the farmers in Giles, with the richest and best of all camps in the country, have often had to move out and pay 3 m/c per head for their sheep on other land, and that the farmers on the outside lands, if they ploughed up and sowed alfalfa so as to keep the breeding sheep well fed, would be the best off people in the country. The sheep business, he thinks, will always give the poor man a decent living, but the days for making fortunes in sheep are over; everything is too dear, and the puesteros must turn about, make bacon, rear poultry and work as the farmers at home, then, although they wont make a fortune, they will always make edough to support themselves and their families comfortably.

We hope these remarks will attract the attention of other farmers who will favor us with their views on the question, mean time, for the information of those living on dear inside lands we think it right to state, that so far from outside lands declining they are steadily advancing in price, and in a few years these outside lands that are to-day considered dear at 10,000 m/n per league will be considered cheap at 20,000 m/n. per league, such is the steady advance of population in the River Plate. We refer our friends to the prices now paying for good black soil camp away out at Sunchales in Santa Fé. Colonies are spreading out so fast, that soon all the land will be bought up, and in a very few years land in Santa Fé will be selling at as high prices as in Buenos Ayres.

THE SAN ROQUE HOSPITAL.

This new and magnificent edifice, which has cost the citizens so many millions of paper dollars, and holds over one thousand patients, is we regret to learn from the most respectable and responsible parties becoming a source of the very greatest danger to the public health; and as we feel quite certain our energetic and active Lord Mayor is ignorant of the nuisance which the flow of the refuse water of the Hospital into the public streets is causing we call Mr. Alvear's attention to the matter, assured that he will at once have the nuisance stopped.

It seems that nothwithstanding all the millions spent upon this Hospital it is defective in sewerage, and the water from the baths of the patients is allowed to flow into one street, down through another, until finally it forms a "laguna" of filthy putrid water in a third; and as this dangerous and infectious 'laguna' is in the very highway between the two plazas, merchants and barraqueros and brokers have to pass every morning the place where the offensive smell is so strong that people have to hold their noses as they drive by.

The winter months are now nearly over, and as it is reasonable to suppose the quantity of water used in the Hospital will be much larger than now, we may look forward to the 'laguna' in Calle Belgrano becoming double its present size; and should we unfortunately be visited by any epidemic in the summer all that part of the town would have to be immediately vacated, as nothing tends more to propagate epidemics than stagnant putrid water, such as that which we now refer to.

It is almost impossible to suppose that so large an establishment as the San Roque Hospital would be received, by the municipality from the contractors defective in drainage, yet one gentleman assures us that the place has no drainage at all, and as we all recollect the great scandal of the Penitentiary in the same line, and which was only remedied last year, it may be possible that as the Hospital was built in the outskirts of the town the architect thought that drains were unnecessary and the refuse water of the establishment could be let out on the adjoining fields. But the city is stretching out so very fast that there are fine houses erected now where a couple of years ago were fields and chacras. We know no part of the city growing faster than the very district where this Hospital stands. To allow, therefore, all the waste water of the Hospital to flow into the street is nothing short of an outrage on the citizens, and we trust Lord Mayor Alvear will stand for a day or so on his grand Boulevard scheme, and concentrate all his great energies on removing this scandalous Municipal nuisance.

SPORTING INTELLIGENCE.

FIRST SPRING MEETING.

The Jockey Club scored another big victory at their meeting held last Saturday. The day was glorious, attendance even larger than expected, and the racing unparalleled.

Full fields combined with close contests afforded racing men as good a day's sport as one could wish for; and the overthrow of the favourite on nearly all the events reminded us once again of the glorious uncertainty of betting. Belvoir, a son of Blair Adam's, opened the proceedings, winning his race in grand style with a field of 12. Versilore, though only a "half-miler," won by sheer good riding and the stiff pace with which his stable companion cut out the work. For the third race Beausoleil, by Fedor, gave the knowing ones their second upset, and won his race purely on his merits; General, the hot favourite, was not even placed. As for Terminacion's win, it was a forgone conclusion, and only one horse (Gladiator) can stand in the same rank with him as a stayer. He won as he wished. Mivosin, who was just as heavily backed, has been ailing for the past fortnight; but, even were he sound, he could never race with Porteño's son. Marius ran better than we have seen him do for some time. In the last race few believed Diana could carry her heavy impost, and were it not for the favorable start she got Signet must undoubtedly have won.

There was a large attendance of ladies, and their gorgeous attire bore a dazzling appearance.

The railway arrangements were not sufficient for the large number of people.

The following is the programme :—

The whole lot were close behind him in a cluster, and ran so to the bend for home, where Tel-el-Kebir, Coronel, Belvoir and Loan came up with Salvato, but were all beaten in the straight for home, except Belvoir, who, challenging Salvato near the Stand, won a good race by about a length, Iridio a good third. Facing the Stand, Lieutenant retired and Miss Palmer led to the distance, where, being challenged by Versicolore, who had taken second place, at once succumbed. Max made a great effort to collar the mare, but never got up to her. The riding of Radcliffe, the English jockey, was superb. Time, 1 m. 57 s.

Facing the Stand, Escoces still held the command, with Dora and the General running second and third. Coming to the distance, Escoces still led, but shortly afterwards was challenged by Dora, who ran on even terms with him to the Stand. Here Beausoleil came on with a rush and won a grand race by a length, Dora half a length behind Escoces. The General was out of it at the distance. Time 1 m. 58 s.

In this race the same tactics were carried out by Terminacion as formerly. He played a waiting game till the distance was reached, and then won as wished. Marius led at a rattling speed up to the distance with Moivoisin and Souveuir in second and third place. The other two were never in the race. Marius was four and Souvenir six lengths behind the winner. Time 4 m. 1 s.—the quickest on record.

Sport gave $5.15.

Diana, with the advantage of a good length's lead, took up the running and was never overhauled, beating Signet by a head, Versicolore a length behind, third.

Thus ended one of the most enjoyable meets that the B. A. J. C. has yet afforded us, and, though the bulk of the crowd went home with much lighter pockets, good humour and satisfaction reigned supreme.

Col. Bosch's stud was, it is needless to add, greatly missed, and would have added much to the day's enjoyment were they competing. The Stand is wonderfully improved, and a ladies' luncheon and waiting room provided—an improvement much needed.

The next meet comes off at La Plata next month, and then the Grand National at Palermo in October.

The Senegal's Mails.

London, July 18th.

In the House of Lords yesterday the Lord Chancellor of Ireland gave notice that he will to-day present a bill to facilitate the sale of land to occupying tenants in that part of the kingdom. On the motion of the Marquis of Salisbury, the Housing of the Working Classes (England) Bill which had been drawn up with the unanimous consent of the Royal Commission, was read a second time.

In the House of Commons the second reading of the Customs and Ireland Revenue Bill was the first order of the day. A criticism on the part of Mr. Childers was followed by a debate which ended in the measure being read a second time. The Medical Relief Disqualification Bill afterwards occupied the attention of the House.

Mr. Gladstone, who was prevented by hoarseness from attention in the House of Commons last evening when the Customs and Inland Revenue Bill, was under debate, has written a letter to Mr. Childers, briefly criticising the provisions of the Tory Budget.

We learn from Simla that Captain Yate and Captain Peacock have arrived at Herat at the request of the Afghan officials in order to inspect the fortifications of the place. The other members of the Boundary Commission have moved towards Herat in order to place themselves within easy reach of communication.

Our Correspondent in Berlin telegraphs that the news from the Afghan frontier causes much uneasiness there. The entire question is considered to be re-opened, and the Bourse was greatly excited, in consequence. It is thought that the negotiations with Russia have not made satisfactory progress, and this unfavourable change is attributed to the attempts of the present Ministry to display more "energy" than the previous Cabinet.

Our Correspondent in Rome states that some apprehensions have been excited in political circles there by the news from the Afghan frontier. The new pretensions of the Russian Government are considered to render a peaceful solution of the question more difficult.

Yesterday's Paris *Temps* publishes intelligence from a private source which states that several Russian officers of high rank who had obtained leave of absence have been ordered to rejoin their regiments.

A telegram from Madrid states that several arrests have been made at Saragossa in connection with a reported conspiracy for a Republican rising.

According to the official bulletin there were 1,496 cases of cholera in Spain on Wednesday and 664 deaths.

Colonel Putti, the Italian Commander at Massowah, has commited suicide while suffering from a violent attack of fever.

The Prince of Wales yesterday visited Preston, where, having received and replied to an address of welcome from the Corporation, he was conducted to the show-yard of the Royal Agricultural Society, of which he is trustee and president-elect.

The polling at Aylesbury took place yesterday, Baron Ferdinand de Rothschild and Mr. W. Graham being the Liberal and Conservative candidates respectively. The result will be made known to-day.

Colonel Stanley, M. P., presided yesterday at the Stanley Hall, Junction-road, N. W., over a large and uproarious meeting held in support of Mr. Wallace Cochrane-Baillie, the Conservative candidate for North St. Paneras,

A meeting of the Court of Common Council was held yesterday, at which the Lord Mayor announced that he had received an official intimation that her Majesty had conferred on him the honor of a baronetcy. A resolution congratulating him was passed unanimously.

The School board for London yesterday disposed of a variety of routine business in preparation for the autumn holidays. The Special Committee on Over-pressure appointed last November presented a report. They came to the conclusion that the inquiry had not disclosed the systematic and universal over-pressure of large numbers of children in the Board schools described in Dr. Crichton Browne's report, but, on the contrary, it had shown that, nothwithstanding frequent ill-feeding and bad homes, they are gaining physical, moral, and intellectual benefit from attending school. They, however, submitted several recommendations, and the consideration of the subject was postponed.

A meeting of the Salvation Army was held at Exeter Hall last night for the protection of girls. General Booth presided, and amongst the other speakers were Mr. Stuart, M. P., Mr. S. Smith, M. P., Mrs. Booth, and Mrs. Butler. In the course of the proceedings the chairman read a letter his wife had addressed to the Queen and her Majesty's reply, conveying an expression of sympathy with Mrs. Booth in her feelings on this painful subject.

The weather at Wimbledon yestesday proved very unfavourable for those who had to shoot early in the day, and brought disaster to many of those who had previously held prominent places in competition for the Queen's Prize. In spite of this, however, some good scores were made, and the average of shooting was much higher than last year. Private Gwatkin, 1st Brecon., who now takes foremost place among the 300 men entitled to shoot again, has scored 95 out of a possible 105 at the three ranges, and of those whose aggregates are 81 points each, twenty will be called out.

The Particular Service Squadron, under Sir Geoffery Hornby's command, left Belfort Lough for Portland yesterday afternoon. On arrival in the English Channel the ships will probably receive orders to proceed to Cowes, there to be inspected by Her Majesty.

A petition was filed yesterday in the Vice-Chancellor's Court, Dublin, for the compulsory liquidation of the Munster Bank.

In a charge of bigmay which was heard at the Guildhall Police Court yesterday, the defendant, James Malcolm or Macdonald, pleaded mistaken identity, but the second wife declared that the defendant was unmistakably the man who married her. The ceremony took place at Brighton, on the 4th April last; but Macdonald's counsel contended that at the time this was said to be in progress the defendant was serving customers in the Central Meat Market. A remand was ordered, bail being admitted.

The general meeting of the London Joint Stock Bank (Limited) was held yesterday at the head-office, Prince's-street, Mr. D. Meinertzhagen presiding. The report, which announced the dividend to be at the rate of of 12½ per cent. per annum for the half-year, was adopted.

Mr. John Pender, M.P., presided yesterday at the Cannon-Street Hotel over the 26th half-yearly ordinary general meeting of the Eastern Telegraph Company (Limited), and in moving the adoption of the report —which recommended a dividend at the rate of 6 per cent. for the year—said that the increased revenue which had been earned was owing to the number of Press and Government telegrams which had been sent over the lines in connection with the military operations that had been going on in Egypt, China, and elsewhere.

The stock markets yesterday showed a general recovery from the fall of the previous evening. Consols rose to 99½, ⅜. The rise in home and foreign Government stocks was ½ to 3 per cent. The Vanderbilt stocks advanced 1 to 4. The Bank sold £21,000 in gold.

EDITOR'S TABLE.

The Royal mail steamer La Plata sailed yesterday; she left a full ship, and with £27,500 in sovereigns for London, also a grand list of passengers, who had a breezy time enough of it going off to the outer Roads. Amongst the passengers we note Mr. Llavallol who goes to bring back his family from London.

The new Bolsa was thronged on Saturday and Sunday, crowds there even yesterday. The ball was the greatest ever given in Buenos Ayres and passed off admirably, although some of the arrangements were sufficiently defective. Mr. Sommers, the renowned hatter and haberdasher, did the largest business on record for this ball, 800 customers in one day.

There was a Brown breakfast the other morning given by the Admiral to Governor Racedo; everything passed off splendidly but many think that the Almirante Brown should be sold or laid up as the country can't afford to keep so expensive a ship.

Yesterday the time for paying the Provincial Contribucion Directa expired. We hear, however, that it will be extended.

We received yesterday a telegram from Rio Cuarto announcing Mr. Olmos as the new candidate proclaimed for Governor of Cordova. Mr. Olmos is one of the richest estancieros in the River Plate, and would make a capital Governor. We hope he will win.

Great Ceasar! All the Provincial banking institutions are off to La Plata :—

Provincial Bank.
Mortgage Bank.
Monte Pio.

This is the most unkindest cut of all. What on earth shall we do without these banks, and the Government Pawn Office; yet the law is out, and was yesterday promulgated. Who'l rent the Provincial Bank for a grand billiard saloon?

The Passionist Fathers will give a mission at Lachosa on the 23 inst., as a renewal of the mission given last year.

The event of Wednesday will be the benefit to Daniel Latham, which promises to eclipse even the brilliant results of the first year. The demand for tickets is already brisk, and everything betokens success. The Colon will be handsomely decorated on Wednesday, and the scenery, etc, will be arranged during to-day. The company, which arrived yesterday, look brimful of happiness at the prospect of having a large audience to bid them good-bye. Othello in Buenos Aires will be a treat.

Mr. Palgrave, H. M. Minister at Montevideo, is an a visit to Fray Bentos, having a look at the Licbig Factory.

There was an annusing account in yesterday's papers of the matrimonial adventures of a Palermo cadet in his teens and a "sweet sixteen" "rubia" who lives in Calle Montevideo. We regret to say that the pdlice and the beg brother and guardian of the youthful warrior (who is heir to a fortune) were too much for him, his lady love and his future mother-in-law; and he was captured in Piedad church as he was vainly trying to coax a priest to make him a happy man. Matters are made worse by the disconsolate 'novia' earing that he will be blown from the mouth of a gun for deserting from the Military School.

Topcoats, 'tapados,' and toggery of all kinds lost in the free scuffle at the Bolsa ball, may possibly be found by applying at the Bolsa, or to Mr. Joaquin Llavallol.

The Bolsa Ball was a prodigious success in the way of dress, diamonds and decorations, but a failure in all other respects. The crowd was tremendous. The arrangements were defective inside and outside (so much so, that the ladies had to walk through a stream of dirty water when alighting from their carriages), the police allowed the said vehicles to take care of themselves (there were 1,000 of them in the Plaza at 4, a.m.), and the whole again wound up with a free scrimmage in the cloak-rooms, and the first ladies in Buenos Ayres found that they had made a most unprofitable change of "tapados" with some dames or damsels unknown. The blaze of diamonds was tremendous; but Mrs. Pacheco, wife of the Finance Minister, set the excellent example of not wearing even a single ornament, and she was, undoubtedly, the most elegantly dressed woman in the room.

The renewal of the Loan negotiations made the brokers, bulls, stags, lame ducks and guttersnipes gasp on Saturday. It seems as if the thing will be done now. Strange to say, "The Loan" was hopelessly beaten at Palermo races on Saturday. If the loan be raised, we hope all the economising intentions of the Government will not be thrown to the dogs, which is but too probable. If so, the country will be on the broad of its back in earnest next year.

The Industrial Club is now going in for making "aguardiente" and fattening sheep, two things that do not seem to the uninitiated to be first cousins.

Bravo! Brazil is going in for the total abolition of slavery immediately, if not sooner. As a matter of mere fact, black people always get along more comfortably as slaves than as freemen.

Clouds of German spies in France does not look a peaceful sign. "Quien sabe" how the next round between the Gaul and the Teuton may end.

The Clerk of the Weather sent us a polite note yesterday to look out for rain and keep our umbrella dry. "Gracious mil."

President Santos wore a gorgeous velvet dress, covered with gold embroidery, when receiving the Paraguayan Envoy. We hope there is nothing wrong with H.E.'s head. Dressing like the Shah of Persia or the King of Abyssinia, looks very suspicious. If the bankers at home had got sound of this velvet and gold toggery in time, the Uruguayan Bank would not have been launched.

We feel much pleasure in saluting our esteemed colleague, *La Voz de la Iglesia* on its fourth birth-day, and hope it may live and flourish for ever.

Everybody, rich and poor, jumped out of their boots on Saturday at the official contradiction given by the *Tribuna* to the report that there would be a fresh emission of notes. More shinplasters would ruin the country.

There were grand religious and lay fetes at Barracas on Sunday. The Archbishop gave the Papal Benediction. The Assumption is one of the three days in the year on which the Pontiff's blessing can be given in this diocese.

There was some fun in the Buenos Ayres Chamber on Friday, when an auctioneer Deputy got up and said he would take a bid from any hon. member for anything he would like to buy. The joke was meant to show that a man might have two occupations at the same time, and attend to both. The question before the House, we believe, was about some official who had several posts and attended most religiously to none of them. He wasn't dismissed, thanks to the auctioneer's mild joke.

By all that's d——ebateable! Here's the Continental Exhibition again. Mr. Calvo has 1,000 bronze medals of this truly irrepressible Exhibition still going abegging. Poor Mr. C.! It's enough to make a man as bald as a billiard ball to have this dead-and-gone Con. Ex. cropping up in this way every three weeks.

There was a miserably small fire at Calle Peter Mendoza, at the Boca, on Friday night. Next to no damage done.

A commercial house here got into trouble to the amount of 20 Nats. fine the other day for doing the economical to such an extent as to put a used postage stamp on a letter.

The Lazaretto on Martin Garcia is being prepared for work. There are 4,000 beds for third-classers, and 2,000 for travellers of the first order. Also all sorts of appliances for smoking the microbes out of the emigrants and their wardrobes.

The railways of this country are valued at 140 millions. What would they fetch if sold?

Ho! Ho! The Buenos Aires and Rioja Lotteries have been caught tripping. Thirty numbers changed in the last drawing of each. The Rentas Office has ordered the "empresas" to pay both the true and the false numbers. The Inspectors deserve public gratitude for exposing this swindle. There should only be one Lottery in the country, as in Spain.

The red-coloured skies at sunset are coming to the fore again. Crowds of people could be seen with their mouths open on Friday and Saturday gaping towards "the western sun." We suppose more Java earthquakes are on the tapis.

There was an aristocratic crowd at the "velada" of the Catholic Club the other night. The music was very enjoyable, and some people declare that the declamation was ditto.

MR. THICKE'S LECTURE.

(Continued.)

In dissecting the title of the paper "Art at Home," which to some minds, as I have said, might appear an ambitious one, I wish at once to disillusionize the idea that I am attempting to deal with the Homes of the Wealthy, where works of art can be easily procured. I propose merely to talk a little about the homes of the lower and middle classes and endeavour to show that by the aid of a little study of art and a small amount of diligence, a home can be made more comfortable and more pleasing to the eye without any great expenditure of money.

Although we live in a prosaic age, yet the study of art is rapidly extending itself throughout the civilized world. We do not exist now-a-days in a region of Romance. We do not preach about our "low and pretty cots where roses that are tall enough peep in at our chamber windows, when the sea's faint murmur can be heard at silent noon and eve and in the early morn, and where all around is green and woody, and where we are happy because love dwells with us!" We want something more substantial than all this, and the time is arriving in the world's history when men will be clever enough and sufficiently studious to render life more bearable by all classes of the community by indulgences in petty luxuries which will combine artistic pleasure with personal comfort.

In the same way that a man who speaks fluently and well need not make use of any violent gesticulation, so may a house-wife, if she arranges her rooms in a quiet way with perfect order and discriminating taste, dispense with all the unnecessary gew-gaws and accessories such as Peacock feathers, and other two-penny half-penny nonsense. This recent craze for displays of this latter description, I am pleased to say is dying gradually out, and yet perhaps we ought to be grateful that it did become fashionable, for it at least possessed one merit, that of drawing attention more directly to the need of decoration in our living rooms. Meretricious ornaments and spurious enbellishment have ever been the distinguished characteristics of parvenues and the vulgar, but with so many Art Academies and Art Exhibitions continually being held in all parts of the Universe, it would indeed be a matter for regret if Art did not assert itself, and the unbecoming and incongruous furnishing of our homes thus be almost a thing of the past. The æsthetic craze, of which so much has been seen and heard of late years, is dying a lingering death, but in its case also a certain amount of good work has resulted, for we find that the ridicule the foolish exponents of nonsensical notions brought upon themselves has directed the taste of the wise into a purer and more artistic channel.

There are a thousand and one cheap ways in which a house can be made to appear more artistic, all of which should commend themselves to the house wife. Illumination on vellum or paper, as I have already stated, can be well adapted for ornamentation of rooms in the way of dados, friezes, panels, screens etc. Rude forms of illumination were practised in the most remote period. A sort of paper was made from the leaves of trees. To Egypt belongs the credit of having first introduced parchment, which was utilized in the form of books and mural decoration. Many works of the Anglo-Saxons gorgeously written and sumptuously decorated with illuminated caligraphy are extant and may be found in most of the European Museums, but as a study this branch of Artistic work has been sadly interfered with by the Printer. Still for all that, I am pleased to say, at our Art Schools at home it is at last receiving some attention. It is an interesting occupation, and the results of its study and labor may be made a cheap way of adding to the decoration of *all* the rooms of a private house. That illumination was excessively popular during the 14th century in England, is proved by the numbers of the Coats of Arms emblazoned in many of the most remarkable English manuscripts. Why it has not found greater favor in the 15th century, is to me a matter for wonderment. I would strongly recommend anyone seeking a new artistic pleasure to study the art of illumination. There are many excellent works upon the subject to be found in most public libraries, the most practical one I have come across being "The Art of Illuminating" by Sir Digby Wyatt. A mother could scarcely do a thing more likely to benefit her children and to fix the lessons of love or piety she would desire to implant in their memories, than to instruct them to illuminate little volumes or panels or even sentences which might be exhibited on the walls, and which from their beauty or value they might be inclined to treasure through life. Interesting her children in their work, how many precious associations in after life might hang about these very productions.

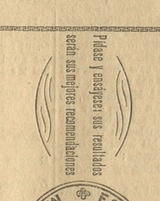
ESPECIFICO NACIONAL
PARA LA
CURA RADICAL DE LA SARNA EN LA ESPECIE OVINA
LIBRE DE VENENO



La glicerina siendo reconocida hoy por todos los prácticos como el mejor de los tópicos para la composición de antisépticos, algunos comerciantes víctimas de un buen fé, creyendo lo afirmamos sin temor de ser desmentidos, no es otra cosa que un menjunje de fenol carbólico impuro, y de materias inertes.

Los especificos con la base de glicerina, son como lo dicen los avisos y prospectos de dichos señores comerciantes, los mejores curativos de la sarna, como gusanos, larvas, etc. Por lo tanto, valiéndome de las palabras de esos señores, podemos decir que nuestro especifico es el mejor, pues es un Sulfo-glicérico cuya base está garantida por 70 o/o de glicerina pesando 28 grados.

Para evitar todo error, al pedir nuestro especifico, exijir que los envases lleven nuestra marca registrada.

Los pedidos para ensayo, serán atendidos inmediatamente pedidos.

ON 'CHANGE

August 17th, 1885

Gold ..... 41 o/o prem.

The Bolsa opened this morning with the most violent fall in gold, which was attributed to the news that Pellegrini had re-opened the loan business with the London Syndicate on better and more favorable terms to the country. Prices that closed hard on Friday night at 145½, buyers, rose in the street that evening to 146, and we heard of many gold purchases made on Friday night in Calle Florida at 146. Such was the settled conviction of the whole market in the steady advance of gold that one leading German broker entered the Bolsa this morning with orders to buy 350,000 and not to pay higher than 148, and another broker, who could not fill his order to buy on Friday at 145, bought to-day at 141. It is not often that we have to record such a violent fluctuation in the gold market as we all witnessed this morning, and although there is a very strong party speculating for a fall, yet many people distrust the present fall and hold their gold, as not much faith is put in the new prospects of the new loan.

It is a remorkable fact, and one which shows the intense excitement in the gold market, that there was not a single transaction throughout the day in Cedulas, Bank Shares, Scrip, Bonds, &c. The whole business of the day was centred in gold, and the total sales up to half-past one o'clock were $1,811,900, which shows the magnitude of the transactions. The market opened for cash at 142½ and closed at 141. For the end of the month it opened at 142 and closed at 140.50, a little over one million dollars sold. For September 560,000 sold, opening at 141, dropping to 139, then running back to 140, and closing at 139½. For October 31st 10,000 sold at 139. For August 22nd 35,000 sold at 140.90-141.

Respecting the impending emission, there was nothing new known on 'Change. Those who seem to understand what is going on say that the curso forzoso bill will be brought up in Congress shortly, and that the full amount according to the National Bank charter will be allowed the Bank, but as regards the Provincial Bank no one seems to know what will be the upshot, save that the Board of Directors is to be removed to La Plata, and already more than half the discounts of the Provincial Bank are done in La Plata.

The following is a summary of operations effected this morning at the ring during official hours:—

Gold—

For cash 131,900 at 142.50-142-141.50-141
For Aug. 22nd 35,000 at 141-140.90
For August 31st 107,500 at 142-141.50-141 to 140.50
For Sept. 30th 505,000 at 141-140.50-140 to 139.50
For Oct. 31st 10,000 at 139.50
Sales, 790,400

We all consider that the removal of the Bank Board will be a fatal error, but as it appears to be decided upon, there is no help for it.

The news from the camp districts continues most unfavorable, all the farmers complain of the long drought, the sheep and cattle dying on all sides. One party has returned to town after visiting some estancias where cattle are offered for sale cheap; he says the cows are hardly able to walk.

It was not known on 'Change what gold the Royal Mail took to-day; some parties said she took a large sum, and others that she took very little; and as the export of specie for some reason or other is kept up as a secret, it is very difficult to get the exact figure until the day after the steamer sails. The general report was that she took about £20,000.

Mr Anderson, Manager of the London and River Plate Bank in Montevideo, has applied to Government to have the bank charter in that market renewed for another 20 years, also to recognise an increase of the capital by $500,000, which, of course, will be at once granted by the Government.

Our colleague *El Diario* publishes very bad news from Entre Rios. In the neighbourhood of Gualeguay sheep and cattle are dying so fast that the estancieros are alarmed, some having lost half their capital.

Mr J H Ransom Jr., of New York, was welcomed on 'Change; he represents 7 of the largest boot and shoe manufacturing companies in the States, and we are happy to hear that he has formed a most favorable view of this market, with which he has already formed important business relations. Mr Ransom will pay La Plata a visit before returning to the States.

A great sale of cattle in Rio Cuarto is reported, 7,500 picked cows and 2,000 calves at reserved price. This is one of the largest cattle sales we have recorded.

The news from Santa Fé is excellent. Dr Lucas Gonselez has formed in London a new Company, capital one million sterl., to start an agricultural bank in that Province, and application is now made to the legislature for a charter, which as a matter of course will be at once granted.

Gold at afterhours reacted, and fully six hundred thousand dollars were bought and sold for the end of the month and September at from 141½ to 142½, jumping up and down every five minutes; at 5 o'clock the market closed 142 buyers for end of month. The impression on 'Change is, that there is nothing in the loan business, and at 5 o'clock the news came from Congress of the great debate there and the hot argument between E Paz and the Minister of Hacienda.

It was announced on 'Change this afternoon that the law is promulgated in La Plata today removing the Provincial Bank, Hypothecary Bank and Monte Pio to La Plata; only sucursales will be kept here. The importance of this decree is unsusceptible of exaggeration. We regard it as a most suicidal measure. Already three of the new Directors of Provincial Bank in La Plata are spoken of.

The very sudden death of Mr. Tebbut, so well known to us all, spread a gloom over the market; deceased caught a severe cold coming in the train from Curumalan on Wednesday morning. He died at his hotel on Sunday, and was buried this evening; his funeral was largely attended by the principal English merchants.

There was a great financial debate in Congress to-day, but the result was not known on 'Change; it seems that the total reductions on the Budget will not be as large as expected, and the new Budget will be 38 millions, which in the opinion of all is 8 millions too much.

The Lady Committee of the Bolsa Ball has netted for the public charities 14,000 m/n from the proceeds of this never-to-be-forgotten ball.

Telegrams have been received by a leading house here giving Hard Dollars in London at 72, which is a very sharp drop on previous quotations.

The La Plata took, we hear, 27,500 sovereigns to London.

The produce telegrams from Europe are very bad, all our produce down in Europe and markets still falling.

The Bolsa received to-day long produce telegrams from Europe, nothing, however, of importance, Consols 99⅜, Argentine Public Work loan 96, Hard Dollars 74, Argentine five per cents 82⅝; Manchester market firm.

Exchange rules at 46⅛ on London, and 4.90 to 4.92 on Paris. One of the Banks taking pretty freely.

It is rumoured on 'Change that a very strong opposition party is formed against Dr. Pacheco, which, if successful, may lead to very important results.

Another important land sale was reported on 'Change; 18 square leagues in the VIIIth Section National territories (Victorica) for $4,500 m/n per league. Mr. Gonzalez Arrascaeta broker.

For land 'boletos' many buyers, but very hard to obtain even at 4,000 m/n per boleto.

In yesterday's gale the Brit. barque Wandering Sprite ran on the English Bank; the crew thinking she was lost left her, but the steamer Fortuna went out to her and got her off. A cargo of Cardiff coal, rather good salvage.

The following, respecting the great failure of the Munster Bank in Ireland, we received by the mail:—

"The Munster Bank suspended payment yesterday. The announcement, though not wholly unexpected, came upon the citizens of Dublin with surprise, and caused considerable excitement. Business was conducted yesterday as usual, and up to the accustomed closing hour (four o'clock), but early in the day it had been stated that large cheques had been dishonoured, one at least without the endorsement 'refer to drawer', and in the Chamber of Commerce and elsewhere rumours of an intention on the part of the directors to suspend payment were current. In the evening the following official notice was put in circulation: "The directors announce with deep regret that the bank has been obliged to suspend payment, owing to the large and continued withdrawals of deposits since the recent litigation in the Vice-Chancellor's Court in the case of Jackson v. the Munster Bank. In making the announcement the directors think it right to add that, on a careful realisation, they expect the securities held by the bank to be amply sufficient to discharge its liabilities." This, of course, removed all doubt that had previously existed. The Munster Bank is a company which acquired the previously well-known and lucrative business of La Touche's Bank. It was incorporated under the Companies Acts, 1862 and 1879, the nominal capital being £1,500,000 in 150,000 shares of £10 each, the paid-up capital being £526,000. The reserve fund, according to the last published report (January, 1885), was £200,000, and the reserve liability £750,000. The directors are Messrs. Nicholas D. Murphy (D.L., Cork), Joseph W. M'Mullen (J.P., Cork), William Lumley Ferrier (J.P., Cork), Edmund G. Dease (J.P., Rath House, Queen's County), James J. Murphy, (Lady's Well Brewery, Cork), and John Warren Payne, (J.P., Banty). Mr. Shaw, M.P. for the county Cork, was until recently chairman of the board. The business, although the head offices were in Dublin, was chiefly confined to the province of Munster, the branch offices being in Bandon, Bantry, Middleton, Kilmallock, Cahirciveen, Rathkeale, Skibbereen, Fermoy, Kinsale, Macroom, Charleville, Limerick, Tipperary, Fethard (county Tipperary), Bruff, Dungarvan, Cahir (county Tipperary, and Kenmare, Dunmanway, Ennis, and Ennistymon, with sub-branches at Glin, Ballylongford, Barrisokane, Drumclogher, and Ballylanders. It is stated that the bank's resources had been greatly depleted since the announcement of the legal proceedings instituted nearly two years ago by Sir Robert Jackson and others against some of the present and past directors, and carried on before the Vice-Chancellor. In the interval there has been a steady drain upon the bank, especially when it was found that some of the directors had overdrawn their accounts a good deal more than they had given security for, which was in direct contravention of the articles of association."

"The annual meeting of the Central Argentine Railway Co.'s shareholders took place yesterday at the offices, Palmerston-buildings, Old Broadstreet, Mr. H Brokett in the chair. The report stated that the gross revenue of the year had been £548,400, against £442,351 in 1883; and the net surplus was £327,202, against £275,292. They recommended a balance dividend of 6 o/o, making the total dividend for the year 10 o/o. The Chairman stated that the report was the best they had ever issued; and as to the present year, the prospects, so far, induced them to look forward to as satisfactory a statement next year. The report was adopted."

Hermann Kaufmann
A Amespil
R D Mackenzie
H Lavallol
Mr Hankey
F Mayol, wife and son.

Two second-class and 8 third-class passengers.

Messrs Oostendorp & Co., in their important produce circular, give the following, under date Antwerp, July 18th, 1885:—

"Quietness continues to be the prevailing feature for all articles excepting hides, which are in somewhat better request.

Bank discount rates rule here at 3 per cent for accepted bills and 3½ o/o for promissory notes; in London the official figure remains at 2 o/o.

Hides—

Imports, 2,300 dry R. Plate
109,400 salted do
23,800 salted Rio Grande
Stock, 24,900 dry R. Plate hides
126,400 salted do
2,800 dry Rio Grande
27,100 salted do
3,000 miscellaneous.

The willingness of holders to accept current values and the gradually approaching working season for the Continental tanners have induced several traders to operate. Business has in consequence been fairly active at prices showing no great change on those ruling at the end of June.

Dry hides remain neglected at weak rates.

Wool—

Imports, 1,400 bales River Plate.
Sales, 900 bales R. Plate
Stock, 30,000 bales B. Aires
19,700 bales Montevideo
100 bales Entre Rios
11,700 bales miscellaneous.

The demand has been limited and holders, in order to effect sales, have had to accept rather low figures.

Our next periodical auctions begin on 28th instant to close on 8th August; 23,910 bales R. Plate and 150 bales Australian have been declared for same.

The quotations for Buenos Ayres invoices, averaging a 1ª, are:—

F.1.65-1.80 for special fine stapled fabric wools, 38-42 o/o yield.
F.1.40-1.50 for fine wools 35-36 o/o
F.1.25-1.35 for good wools 33-34 o/o
F.1.05-1.15 for medium wools 30-31 o/o
F.0.95-1.05 for good medium lambs 31-32 o/o
Fair Montevideo shipments, averaging a 2ª, 40 o/o yield, are worth f.1.45
Scoured wool stands in at about fs.3.50-70 for secondary, fs.3.75-95 for medium, fs.4-4.25 for good to fine, fs.4.25-4.50 for superior fine stapled Buenos Ayres 1ª, and fs.3.50-75 for fair Montevideo 1ª (washing and all expenses excluded).

The third series of the colonial wool sales in London closed on 10th inst. at prices showing an average decline of ½d to 1d on preceding auctions.

At Havre 5,300 bales were offered on 8th, 9th and 10th, and 1,450 bales sold at a reduction of 5 to 10 c. on May for B. Ayres, whereas Montevideo descriptions were completely neglected.

Sheepskins—

Stock, 522 bales.
No sales.

Buenos Aires invoices of mat. skins, ¾ to full wool, averaging a 1ª, are worth nominally f.1.25-30 for good quality, and f.1.05-1.10 for average.

At the Liverpool auctions held on 15th inst. 371 bales were offered and 214 bales sold at ½d decline on May. Entire invoices of full woolled matadero skins are quoted about 6d (fr.1.30) round.

Wheat—

Has declined 25-50 c.

Quotations are:—fs.16 to 17 for secondary and fs.17½ to 18½ for good to fine R. Plate per 100 kilos.

Linseed—

Is steady. R. Plate on spot has been paid between fs.24½-25½ per 100 kilos according to condition, whereas the quotation to arrive is about fs.25 c.i.f. (with the 4 o/o clause).

Maize—

Is weak; fine R. Plate on spot is worth about fs.12; the c.i.f. quotations are about fs.10½ for quality "telle quelle" and fs.11-11½ for good quality guaranteed per 100 kilos, but there is little desire shown to operate.
